

DECLARATION OF CONFORMITY WITH REGULATION EU 2019/1021 (on persistent organic pollutants)

The Regulation (EU) No. 2019/1021 on persistent organic pollutants aims to protect human health and the environment by eliminating or restricting the manufacture and use of persistent organic pollutants (POPs), as defined by the Stockholm Convention on Persistent Organic Pollutants and or in the Protocol on Persistent Organic Pollutants to the 1979 Convention on Long-Range Transboundary Air Pollution.

The Regulation (EU) 2019/1021 pursues this objective by prohibiting, phasing out as soon as possible, or restricting the manufacturing, placing on the market and use of substances subject to the Stockholm convention on Persistent Organic Pollutants, by minimizing releases of such substances, and by establishing provisions regarding waste consisting of containing or contaminated by any of those substances.

According to the Regulation (EU) 2019/1021, the manufacturing, placing on the market and use of the substances listed in Annex I, whether on their own, in mixtures or in articles, shall be prohibited, subject to Article 4. The list of the substances is shown below.
