TSCA-TOXIC SUBSTANCES CONTROL ACT

The Toxic Substances Control Act (TSCA) is an important standard of US chemical regulation. The Environmental Protection Agency (EPA) is responsible for its implementation.

TSCA Chemical Substance Inventory contains all existing chemical substances manufactured, processed, or imported in the United States that do not qualify for an exemption or exclusion under TSCA. EPAs newly enforced five PBT substances of the Regulation under TSCA Section 6(h) in March 2021 are:

- **DecaBDE** Decabromodiphenyl ether CAS No.1163-19-5 (Flame retardant)
- **PIP 3:1** Phenol, isopropylated, phosphate (3:1) CAS No 68937-41-7 (Flame retardant and plasticizer)
- **2,4,6 TTBP** 2,4,6-Tri-tert-butylphenol CAS No 732-26-3 (Antioxidant, lubricant, and fuel additive)
- **HCBD** Hexachloro-1,3-butadiene CAS No 87-68-3 (Hydraulic, heat transfer, or transformer fluid)
- **PCTP** 2,3,4,5,6-Pentachlorobenzenethiol CAS No 133-49-3 (Plasticizer)

Product compliance is based upon information provided by suppliers of the raw materials used by TCI Telecomunicazioni Italia S.r.l to manufacture these products and by product design and knowledge. TCI Telecomunicazioni Italia S.r.l does not routinely test products for chemical content. As such, TCI Telecomunicazioni Italia S.r.l makes no independent representations or warranty, expressed or implied, and assumes no liability in connection with the use of this information.

Based on the information gathered from our supply chain of components and raw materials, we can declare that none of the substances listed in TOXIC SUBSTANCES CONTROL ACT is used in our products. This information is accurate to the best of our knowledge.
TCI Telecomunicazioni Italia S.r.l will continue to monitor all the changes to the legislation and update this declaration to reflect those changes.
